Williams' latest book of poetry, Mute Objects Of Expression, is a powerful and moving collection that explores themes of identity, politics, and the human condition. The poems are written in a unique and evocative style that blends traditional poetic forms with elements of hip-hop and spoken word. Williams' language is both lyrical and incisive, and he uses it to create a world that is both beautiful and disturbing.

One of the most striking things about Williams' poetry is his use of language. Williams is a master of wordplay and metaphor, and he uses his language to create a world that is both beautiful and disturbing. In the poem "Coded Language," Williams writes:

I speak a coded language That only I can understand It's a language of p

The poem explores the idea of how language can be used to both connect and divide people. Williams' use of metaphor in this poem is particularly striking. The "coded language" that he speaks is a metaphor for the way that people often communicate with each other in a way that is superficial and meaningless. The poem suggests that true communication is only possible when people are willing to speak their own truth, even if it is painful.

Another important theme in Williams' work is the idea of identity. In the poem "Who Is Black," Williams writes:

Who is black? Is it the color of your skin? Is it the texture of your ha

The poem explores the idea of how identity is constructed and defined by society. Williams argues that there is no one answer to the question of who is black, and that identity is something that is fluid and changing. The poem also challenges the idea of race as a biological or essential category.

Williams' poetry is also deeply political. In the poem "The Cop Who Shot Me," Williams writes:

The cop who shot me was just doing his job. He was just following orders. He

The poem is a powerful indictment of police brutality and the systemic racism that exists in American society. Williams' use of the first person in this poem is particularly effective, as it forces the reader to confront the reality of police violence from the perspective of the victim. The poem also challenges the idea that police officers are simply "following orders" when they use excessive force. Williams argues that police officers have a responsibility to disobey unjust orders, and that they must be held accountable for their actions.
